Invitation to Join as a Founding Member, the Danish-Portuguese Chamber of Commerce.

Become a founding member of the Danish-Portuguese Chamber of Commerce - a new bilateral business association dedicated to strengthening trade, investment and innovation between Denmark and Portugal.

As more Danish companies establish and grow in Portugal, the practical work of operating across the two markets rarely gets easier on its own. The Chamber exists to make the ongoing work simpler: to support you here, with the advisory, networks and institutional access that keep a business running and growing.

Why join as a founding member?
Founding members shape the Chamber's priorities, governance and value proposition from the outset. Alongside standard membership benefits, founding members receive:

a) Strategic visibility with prominent recognition on the Chamber's website, visual materials and launch events as a founding member.
b) Influence on the agenda with priority input into services, working groups and policy positions.
c) Curated service access with an introduction to the Chamber's vouched catalogue of service suppliers across legal, HR, tax and accounting.
d) Enhanced networking with curated introductions to relevant stakeholders in Denmark and Portugal, including public institutions, municipalities and industry associations.
e) Thought leadership through opportunities to speak at events, contribute to publications and put your expertise in front of a targeted business audience.

Membership designed for impact
The Chamber's activities include training and workshops, tax and corporate legal compliance briefings, a regulatory help desk, bilateral dialogues, visibility and joint advocacy. We are building partnerships across both countries to ensure the Chamber delivers tangible value from day one.

Given your company's strong profile in Portugal, your involvement would help both your own growth and the tone of a vibrant, well-connected business community between the two countries.

Next steps
We would welcome the opportunity to send you the sign-up form and to walk you through founding-member terms, including the reduced first-year fee, briefly by phone or over coffee if you have questions.

Founding membership is open only until the Chamber launches. After launch, the founding tier closes. Securing your place before then also locks in the reduced first-year fee.

Our full Guiding Principles and Framework, setting out the Chamber's vision, governance and membership tiers, is available on request or when we speak. As a founding member you hold exclusive rights to propose initiatives and concrete projects, and to refer other members, observers, board members and partners.

It shall be a privilege to welcome you within the limited cohort of founding member of the Danish-Portuguese Chamber of Commerce.

Warm regards,

On behalf of the Danish-Portuguese Chamber of Commerce

Maj Tellefsen,

Founder
